

Historic Walk

Members of the Saukville Historical Society Welcome you to the inaugural “guided” tour and will be pleased should you chose to be a part of it.

Our purpose is to communicate and inform the historical significance of each site and building. There is a purpose or message intended in communicating the history and in some respect an agenda.

All questions will be answered to the best of our knowledge, but our hope is for you to find lasting connections and a desire to seek more of histories mystery’s.

Acknowledgements

Much of the history regarding the sites is provided from the work of **John Boatman**, author of; at “the crossroads” *Memories From A Rural Ethnic Community The Saukville Wisconsin Area*

With special recognition to **Viola Meyer** this event is dedicated to her and her significant contributions to Mr. Boatman’s book project. **Viola** and her husband **Ray** were instrumental in conducting a great many interviews.

Historic information contained in the brochure is a result of research done by **Dorothy Klien** and **Donna D’Angelo** in 1991.

Through the generosity and contribution of the **Lady Foresters, St. Henrietta’s Court**, the society was able to purchase the 31 site markers.

Interested?

If you own a property located in the Village of Saukville and would like to have your home included in the next Historic Walk brochure printing. Please send a

written request to:
