

Patricia and Ezra, hired interns of the River History Project, have completed their research and prepared a poster showing the results of their research. The project, however, displays limited photographs and some of the names on the poster are incorrect. (either misspelled or not identified correctly). Better collaboration with the Saukville Area Historical Society would have created a more complete, accurate display. We will correct this display for the Kick Off.

The Saukville Area Historical Society will be looking into collaborating with the Oscar Grady Library once a month. We would like to establish one day a month to work with Martin Morante to review the Jim and John Peterson collection to correct the information on the photos. Since Martin Morante is very involved with the digital aspect of the library, Mary will contact him to see if he would be willing to work with us to review the Peterson collection and correct the misinformation in this collection.

NEW BUSINESS:

Saukville Area Historical Society will host the Kick Off the the Milwaukee River History project. There will be a slide show of 48 photos from the Schowalter/Driese album of photos included in the Milwaukee River History. This traveling show will be shared with the historical societies in the communities bordering the Milwaukee River, but it will be permanently on display in the Firehouse Museum. We feel the reception for this Milwaukee River History event would be better attended if we could coordinate it with some other activities scheduled in Saukville. Mary Boyle will look into this before we set the date for the River Edge project Kick Off.

Mary Boyle has offered a movie screen and a projector for us to use for a power point presentation.

Anne Kertscher requested the purchase of the microphone. Nancy Byers made a motion to purchase a microphone and Judy Jacoby seconded it. The motion carried. Anne will look into the microphone purchase.

The purchase of a lap top computer was discussed. Donna D'Angelo will look into the cost and provide the information at our next meeting.

WiFi at the museum would be beneficial. Sally Kupvits said Hot Spot is available for check out at the Port Washington library.

Riveredge Nature Center has scheduled an Oscar Grady Day on Saturday, October 12, 2019 at Riveredge. Our members have been asked to talk about Oscar Grady, providing historical information during this event. Any members who would like to participate in this event would certainly be welcomed by the Nature Center.

Judy Jacoby is going to look into asking Jean Stienke to come to our museum to present a program on provenance and collections. Judy will also ask Jean to sign up on our mailing list so we will be aware of any upcoming programs she will be offering.

We will host the Ozaukee County History Co-op meeting in January. Donna has an historical cookbook that we can use to prepare food items for sampling at this meeting. Members would choose a recipe to make. Recipe cards would be available at this meeting for anyone interested. It should be fun to bake items from a cookbook from the 1800s.

Our membership notification needs to be addressed. Mary Boyle will post a Face book reminder to members for 2019 dues. This reminder will state that membership runs from January to
